ENERGY POLICY

BBW is committed to establish and practice "Energy Management System" in its plants and office facilities. BBW believes that energy is a key factor for economic development and it should be used in a responsible, economical and environmentally sound manner.

Towards this, we shall:

create energy conservation awareness amongst employees and vendors

Commit ourselves to continual improvement in energy performance opportunities by conducting energy audits on a sustained basis

Encourage small group activities aiming for energy reduction, amongst employees

Comply with all energy legislations

Support the purchase of energy efficient product and services, designed for energy performance improvement

Explore the usage of renewable energy resources

Establish and maintain management information systems for effective monitoring, analysing and reviewing to sustain energy efficiency gains.

.
